Subject: Comment on document release

Good morning.

We have several questions based on this release of information:

1. Can you explain the timing of the document release? We have been seeking these documents for weeks. Why are they just becoming available now?
2. Why was work being done on Aug. 5 when these documents show it wasn't officially slated to begin until Aug. 17?
3. Why are the cost estimated for work at the Gold King redacted?
4. Does the EPA have other documentation showing blow-out risk at other mines in Colorado?

Thanks,

--

Jesse Paul
